Profiles

 [Nitin Dhiman](#)

 [nitindhiman01](#)

Summary

- A Passionate and highly creative web developer excited to take on new challenges in building and maintaining new web applications. Seeking an entry level engineering position where I can work with the project team on all aspects of product design & construction and utilize my skills to help drive the organization towards success.
- Proficient in C++ to create and optimize the code with a strong knowledge of object-oriented Programming.
- Demonstrates skill in crafting fully functional, responsive and visually appealing websites by leveraging a comprehensive skill set in MERN stack. Applies a user centric approach to design, ensuring seamless navigation and optimal user experience.

Education

Chaudhary Devi Lal University, Sirsa	September 2020 - June 2024
Computer Science Engineering	B.Tech
8.67 GPA	

Projects

Blog Website	2023
---------------------	-------------

🔗 <https://github.com/nitindhiman01/CODSOFT.git>

- Spearheaded the development of a blog website using HTML, CSS, JavaScript at the client side and Node.js, Express.js, MongoDB at server side, offering the user to create a personalized blog post and interact with them. Crafted an engaging layout for a smooth user experience.

HTML, CSS, JavaScript, MongoDB, Node.js, Express.js, EJS, Passport.js

Personal Portfolio	2023
---------------------------	-------------

🔗 <https://nitin-develops.netlify.app/>

- Developed and deployed a visually appealing and user-friendly website, highlighting my expertise in programming and web development.
- Demonstrated adaptability and self-motivation by continuously updating and expanding the website to reflect new projects and industry trends, ensuring relevance and showcasing my commitment to staying current in the field.

React.js, Material UI

CarBuddy - Cab Booking and Car Rental	Feb 2024 - April 2024
--	------------------------------

A cab booking web application based on MERN Stack and WebSockets

🔗 <https://github.com/nitindhiman01/Cab-Booking-And-Car-Rental-Web-Application.git>

- Succesfully designed and implmented a cab booking web application with React.js and Node.js, which offers the user to book and rent a car. Played a pivotal role in crafting an engaging layout for a user-friendly experience.
- Single-handedly developed the server side and database of the web application.

React.js, Express.js, Node.js, MongoDB, WebSockets, MapBox API

Shree Durga Mineral Solution	April 2024 - Present
-------------------------------------	-----------------------------

A mineral water delivery full stack web application.

🔗 <https://github.com/nitindhiman01/ShreeDurgaMineralSolution.git>

- Collaborated within the team to design and develop a full stack web application using HTML, CSS, JS at client side and Node.js, Express.js, MongoDB at server side, which offers the users to track their daily subscription for a local mineral water delivery company.

HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, EJS

Experience

CodSoft, Kolkata

September 2023 - October 2023

Web Development Intern

Remote

<https://www.codsoft.in/>

- Worked on a Full Stack web application during the internship period using HTML, CSS, JavaScript, EJS on client side and Node.js on the server side.
- Enhanced the "Blog Website" project by adding user authentication, search functionality and comment feature.

Skills

Technical Skills	Web Frameworks	Soft Skills
●●●●○	●●●●○	●●●●○
C++, Python, JavaScript, HTML, CSS, EJS, MongoDB, MySQL, WebSockets - Socket.io, Redux, Git, GitHub, PostgreSQL	Express.JS, React.Js, Node.Js	English Speaking, Communication, TeamWork, Adaptability, Time Management, Problem Solving

Certifications

C++ Programming / Object-Oriented Programming

May 2021 - June 2021

Internshala

<https://trainings.internshala.com/s/v/3245605/09a35c61>

- Online training for object-oriented programming with C and C++.
- Top performer of the batch with a score of 98%.

Front-end Web Development

August 2022 - September 2022

Excellence Technologies, Mohali

HTML, CSS, JS, Bootstrap

Full Stack Web Development using MERN Stack

2023

Udemy
